OBJECTIVE

Seeking an internship or entry-level opportunity in Information Technology, focused on software development and programming, to apply my academic knowledge, learn from the team, and contribute to building efficient solutions.

SUMMARY

Computer Science student with an analytical profile, strong logical reasoning, and a keen interest in technology. Studying programming, data structures, databases, web development, and software engineering, with academic experience in several programming languages and development tools.

EDUCATION

Bachelor's Degree in Computer Science — PUC Minas, Lourdes Campus
Belo Horizonte, MG, Brazil | 2nd semester | In progress

Completed courses

- **Algorithms and Data Structures I** — lists, stacks, queues, searching and sorting
- **Introduction to Computing** — computing fundamentals and programming logic
- **Calculus I** — limits, derivatives, and integrals
- **Discrete Mathematics and Computability** — logic, sets, relations, and computability fundamentals
- **Interdisciplinary Project I: Programming** — hands-on programming project

Courses in progress

- **Algorithms and Data Structures II** — advanced data structures
- **Databases I** — data modeling and SQL
- **Web Interface Development** — HTML, CSS, and JavaScript
- **Software Engineering I** — development processes and requirements gathering
- **Interdisciplinary Project II: Front-End** — front-end interface development

TECHNICAL SKILLS

- **Languages:** C, C++, Java, JavaScript, HTML, and CSS
- **Tools and environments:** Visual Studio Code (VS Code), Vim, and Code::Blocks
- **Version control and collaboration:** GitHub, WhatsApp, and Email

SOFT SKILLS

- Logical reasoning
- Problem solving
- Continuous learning
- Organization
- Attention to detail

PROJECTS

- **Login page**
- **Portfolio**
- **Vireo** (Interdisciplinary Project II – Front-End) — developed the library, material details, and reservation and exchange history pages
